

Q-BALL GLIDES

Q-Ball glides are made of a high quality flexible PVC material. The round ball design reduces floor contact by 80%.

Q-Ball glides have a molded in insert to prevent cut-thru from the chair tubing.

Q-Ball glides are fitted with an inside tube metal holding clip to hold them securely in place for a permanent solution.

Q-Ball glides are the perfect solution for situations where floor scratches are a problem. The low friction Q-Ball will provide a permanent solution to floor scratching. Gray color. Also available for square tubing.
