

MagnaSkin Installation Instructions

STEP 1 – Clean old surface. Wash well, and dry thoroughly. Surface should be free from oil, grease and dust.

STEP 2 – Peel off covering from adhesive backing on MagnaSkin.

2 – Peel off Covering

STEP 3 – Lift into place (The MagnaSkin is light enough for 1 person to install but is recommended for 2-3 people to keep from flexing and to insure that it stays level). Starting at the bottom edge, make contact with the surface and roll securely into place all the way across a few inches up to insure that it stays level while keeping the top away to avoid making contact.

3 – Lift into Place

STEP 4 – Start working your way up from the bottom evenly across the entire area rolling firmly to ensure complete contact with no air bubbles.

4 – Roll to Secure

STEP 5 – Remove protective film coating that was placed on writing surface.
