

Model 97JJ

Installation Instructions

ASSEMBLY:

- Step 1:** Assemble the handle and the extension arm. Slide the handle through the square opening of the extension arm located at the rear. Once connected simply pull back on the red grip located at the top of the extension arm and slide the extension arm to a desired location on the handle.
- Step 2:** With the handle and the extension arms assembled. Take the base/wheels and connect it to the handle. With all parts assembled insert the bolts and tighten up the nuts (see diagram).
